"FLETCHERISM"

The habit of chewing one's food until it becomes almost liquefied and swallowed involuntarily, and eating certain foods at certain times of the day, is called "Fletcherism" after a man named Fletcher who advocates this method as a remedy for indigestion and stomach troubles. While one may get from this system the maximum amount of strength from the minimum amount of food, it is a question as to what extent this principle of living can be applied to the human race as a whole. It is an old and true saying, "What is one man's meat is another man's poison." There is one thing sure, however, much less distress and much more assimilation of the body-building elements contained in every day food would be experienced by people with poor or impaired digestion if they would only believe what we tell them about Vinol.

There is no mystery about it, or misrepresentation. Vinol simply contains the necessary elements needed to re-establish a normal condition of the digestive system. There is no need of going into the scientific reasons why—it simply does it—that is all.

Thousands of genuine testimonials from reliable people prove this claim, and to further support the fact and prove our faith in what we say, we unhesitatingly declare that any one who will buy a bottle of Vinol for stomach disorder and malassimilation, will have their money returned without question if they are not satisfied that it has done them good. The world's record for trotters has been reduced over one minute in less than one hundred years. In 1806 Yankee set the record at 2:59. In 1910 Ulan placed it at 1:59, without the wind shield.

Harvard Scholarships
Two scholarships are open to Kentucky young men at Harvard and Governor Willson, one of the overseers of Harvard, has been asked to give publicity to the fact that here is a splendid opportunity for some ambitious young men in Kentucky. The scholarships were founded by Rumrill, and are for the young men of the South only. They must be young men of good moral standing, as well as possessing the necessary mental qualifications.

CIRCUS TRICK

Not Down on the Bills—It Was Worth the Money, All the Same

One of Maysville's auto "speeders"—and it's our misfortune that we have a number of that class—was sending his machine up Sutton street at a lively pace yesterday, and when in the act of turning East into Third street a buggy going West blocked his way.

In order to avoid a collision with the vehicle he gave the machine a wide swing to the South side of the street, and to his dismay there stood Dr. Brand's Buick right in his way and a double-header seemed almost unavoidable. Fortunately the young man controlling the machine was a quick thinker as well as actor, and without a moment's hesitation he shot his runabout onto the pavement, moved along the concrete walk until the danger zone was in his rear, and then, passing between two trees lining the pavement about fifteen feet apart, swung off the sidewalk into the street again.

It was a regular circus trick, as well as a nervy feat.

NEW YORK, Jan. 19.—Former Mayor

of Buffalo called on Mayor Gaynor yesterday and discussed the possibility of a fusion ticket for Mayor Gaynor. After leaving the Mayor's office, Mr. Sheehan said he had no other business with the Mayor. "How is Mr. Sheehan?" continued Mr. Sheehan. "He is well, and still of the people," he said.

Abolish Hip Pockets
Captain R. H. Fitzhugh, a Confederate veteran of Lexington, is urging that a bill be introduced in the next Legislature providing that all trousers shall be made without hip pockets. He contends that booze and pistols are carried in the hip pockets and if these pockets are prohibited, murder and drunkenness will be reduced very materially.

Spread of Scabies

Commissioner of Agriculture Rankin has received a report from the Live Stock Sanitary Board that the sheep scabies has spread into Cumberland, Monroe and Clinton counties; also, the report that the center of the worst affliction is in Washington county, and that radical steps are being taken to eradicate the disease from the State. Of the 119 counties of the State there are now 52 infected with scabies.

Some Damage Suits

Five suits against the Louisville and Nashville Railroad amounting in the aggregate to the sum of \$6,002.81 have been filed in the Bourbon Circuit Court this week. Four of the suits are a result of the fire which destroyed a portion of Millersburg and which is alleged to have been the result of negligence on the part of the defendant Railroad Company. The plaintiffs in the four latter suits are all colored, the largest sum being asked by the Trustees of the Colored M. E. Church, who sue for \$2,390.15.

COMES QUICKLY

DON'T HAVE TO WAIT FOR WEEKS—A MAYSVILLE ILLUSTRATION

Waiting is discouraging. Prompt action pleases everybody. A burden on the back is a heavy weight. Hard to bear day after day. Lifting weight, removing the burden. Brings appreciating responses. Maysville people tell of it. Tell of relief that's quick and sure. Here is a case of it:

Mrs. John Burns of Maysville, Ky., says: "I value Doan's Kidney Pills just as highly today as when I gave a statement for publication in their praise some years ago. I was subject to attacks of kidney trouble and at times the pain in my back was so acute that I was confined to my bed for days. The prompt relief I received from Doan's Kidney Pills, procured at J. J. Wood & Son's Drugstore, was very gratifying, and I have had no serious return of kidney trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

20% UNDERFEED INVESTMENT

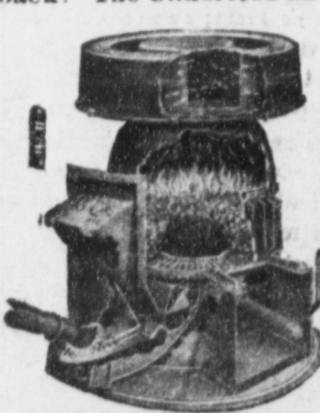

Most heating systems are an actual drag on the domestic treasury. If you want to enjoy actual every-winter dividends, tear out your old glutinous coal-eater, with its uneven heat and hard-to-satisfy appetite for fuel. Put in a

PECK-WILLIAMSON UNDERFEED FURNACE OR BOILER

Choose the system you like best—warm air, steam or hot water. Cheapest slack in the Underfeed yields as much clean, even heat as most expensive grades; which ordinary heating plants require. All the fire is on top and has to eat down into the fr-sh-al against the draft. Combustion is slow and perfect, and smoke, soot and gases are entirely eliminated. This enables Underfeed furnace and boiler users to

SAVE 1/2 TO 3/4 OF COAL BILLS.

This saving represents a 20% dividend on the investment for this modern system of heating. Figure it out. It won't take long to get your money back. The Underfeed adds to the selling or renting value of any building.

Write today for free booklets on Underfeed Warm Air, Steam and Hot Water Heating Systems. Our representative will be glad to call any time and make you a detailed proposition.
